Mandarin’s House launches AR experience and new cultural and creative products

On the occasion of the 180th anniversary of the birth of Zheng Guanying this year, the Cultural Affairs Bureau (IC) has launched an augmented reality (AR) mobile application (WeChat) for the Mandarin’s House. Visitors can simply scan QR codes or access the mini-application through IC’s official WeChat account when they visit the Mandarin’s House. The application employs virtual technologies to present a compilation of Zheng Guanying’s masterpiece “Words of Warning in Times of Prosperity” and scenes of “The House of 72 Tenants” as well as animated videos about the Mandarin’s House from different periods. In addition, it provides guided tours in Traditional Chinese, Simplified Chinese, Portuguese and English, and contains a treasure hunt game and several photo scenes with special effects.

In addition, the Mandarin’s House Store has incorporated the characteristics of Lingnan-style residential houses to create the traditional ambience of an old shop in Macao. Visitors can purchase local and overseas cultural and creative products, souvenirs, and innovative products related to local cultural events. Furthermore, the store collaborates with a local Chinese bakery founded over 60 years ago, which launched a limited edition gift box under the theme of “Traditional Pastries X Macao’s World Heritage”, offering a wide variety of cultural and creative souvenirs to residents and tourists.
